

Natural Flood Management (NFM) and Conservation Fund

Funding Available: Up to £30,000 per project

The NFM and Conservation Fund supports practical projects that improve flood resilience, enhance habitats, and boost biodiversity across the Medway catchment.

Who Can Apply?

- Landowners, farmers, individuals
- Local authorities and non-profit organisations
- Anyone within the Internal Drainage District or its catchment that would benefit from additional flood resilience

What Can Be Funded?

- Natural Flood Management
- River and stream improvements
- Habitat restoration and biodiversity projects
- Retrospective funding for applicable works completed in the last 3 months.

How to Apply (in 3 Easy Steps)

1. Complete our online Expression of Interest form at: www.medwayidb.co.uk/resilience
2. A UMIDB staff member will contact you to discuss the project details
3. If we think the project is suitable, we will help you complete a full application form

Why Apply?

- A potential funding decision within 90 days
- Supports climate resilience and environmental improvement
